Subject Testimonial

Dear Will,

I am more than pleased to offer this testimonial for your new website.

Having worked with Taylor Hart on our project at Park Hall School in Solihull where you carried out the work on internal partitions, suspended ceilings, dry linings, wet plastering and our passive fire protection we found the level of service provided by Taylor Hart to be excellent.

The work on site was always well supervised, but should instances arise when input was required from your visiting contracts manager he was always available either to visit site or discuss matters on the phone, meaning that any potential problems could be resolved before that became major issues.

The works being well supervised delivered a high quality finish for which we were complimented by our mutual client Solihull Metropolitan Borough Council.

Our demanding requirements for a quality product delivered safely on time and within budget has meant that Taylor Hart have now been elevated to Tier 2 within our Supply Chain which should mean that we will have the opportunity of working together once again.

I would like to thank Taylor Hart for their contribution and playing their part in what was a most successful project for everyone and would welcome the opportunity to work with you again on future projects.

Yours sincerely
BAM Construct UK Limited

Paul Hayfield
