

December 2019 Newsletter

Welcome to our December newsletter. Taylor Hart Ltd have had a very busy but successful year. We would like to inform you all on some staff changes and key points which have recently taken place.

Staff Update

Firstly, we would like to welcome two new members of staff to our team, these are:

Paul Norris who is employed as a Quantity Surveyor and Sophie Kane who is employed as an Assistant Estimator.

Further to this, due to an ongoing and greater workload with new and existing customers we have also taken on two new Site Managers. Our new site managers are Ian Grayson and Steve Eyre.

Terry Pratt has recently been promoted to Senior Contracts Manager, he will now oversee all sites, working closely with our Contracts Director. We would like to wish them all the very best of luck with their new roles.

A huge congratulations to Adam Craddock who recently graduated from the University of Birmingham having achieved a First Class Honours Degree in Quantity Surveying BSc (Hons).

Achilles Accreditation

We have recently renewed our Achilles Accreditation for the next 12 months, with no detrimental findings. Our systems are fully up to date. We would like to thank and congratulate our SHEQ Manager Dawn Horton for the excellent hard work involved.

Offsite Production

We are committed to finding new ways to contract and have started to use modern methods of construction and have been developing our own offsite production facility. We can produce components such as deflection heads, builders work holes and pre-formed door sets, which gives us a greater control on waste and better quality of installation throughout our projects. This in turn helps the efficiency on site with other trades and programme durations. We have developed a CPD presentation which we are happy to share with staff and customers to show what can be achieved with offsite pre-construction of drywall.

Finally, we would like to wish all of our customers, suppliers, employees and subcontractors a very Merry Christmas and a Happy New Year.
